

## Things to Consider when Creating a Developmental Support Plan

What have I learned from the ASQ:3?	What have I learned from the ASQ:SE2?
<p data-bbox="203 556 706 661">Is the child potentially at risk for any developmental delays? If so, which domains?</p> <p data-bbox="186 819 625 850">What are the child's strengths?</p> <p data-bbox="203 1102 714 1207">Any comments from the Overall questions that require more detail or follow-up?</p> <p data-bbox="203 1491 657 1564">What conversations came out of this meeting?</p>	<p data-bbox="820 588 1331 735">Is the child at risk for any developmental delays? Which <b>Behavioural Areas</b> (from the cheat sheet) have been identified?</p> <p data-bbox="820 1008 1307 1081">Has the parent/caregiver identified any questions as concerning?</p> <p data-bbox="820 1449 1282 1522">What conversations came out of this meeting?</p>

<p>Based on my conversations with the family, what else have I learned about the Child?</p>	<p>What have I learned about the Parent/Caregiver?</p>
<p>What have I learned about the Parent-Child Relationship?</p>	<p>Other Observations/Factors? (e.g. transportation, multiple children, language barriers)</p>

## Risk and Protective Factors to Keep in Mind when Creating a Developmental Support Plan

<p>Risk and Protective Factors within the Child...</p> <ul style="list-style-type: none"> <li>• Birth history?</li> <li>• Temperament?</li> <li>• Birth weight?</li> <li>• Physical development?</li> <li>• Regulation?</li> <li>• Exposure to toxins?</li> <li>• Behaviour and social –emotional development?</li> <li>• Coping, problem solving, social skills?</li> </ul>	<p>Risk and Protective Factors within the Parent/Caregiver...</p> <ul style="list-style-type: none"> <li>• Own experiences of abuse, trauma, loss?</li> <li>• Self-efficacy? Competence? Self-esteem?</li> <li>• Birth experience?</li> <li>• Physical and mental health?</li> <li>• Marital cohesion?</li> <li>• Access to support network?</li> <li>• Planned pregnancy?</li> <li>• Knowledge about child development?</li> <li>• Attitude toward parenting?</li> <li>• Age, education, health, income?</li> <li>• Substance abuse?</li> <li>• Criminality?</li> </ul>
<p>Risk and Protective Factors within the Parent-Child Relationship...</p> <ul style="list-style-type: none"> <li>• Attachment relationship?</li> <li>• Responsiveness to child's distress?</li> <li>• Family cohesion?</li> <li>• Consistency? Predictability?</li> <li>• Positive, loving affect towards the child?</li> <li>• Parent-child cohesion?</li> <li>• Goodness of fit?</li> </ul>	<p>Other Observations/Factors (e.g. transportation, multiple children, language barriers)</p>
