KFL&A IEMH Care Pathways Implementation Team Meeting

Date	May 29th, 2025
Time	10:30am – 12:00pm
Location	Virtual- Teams
Attendees	Rup Patel, Hadir Ashry, Karys Peterson-Katz, Amanda Evaristo Wendy Fisher, Helen Mabberly, Pam Kent, Darlene Derbyshire, Jennifer Barker, Vicki Casey, Sarah Kring, Susan Potvin, Jennifer Barker, Leigh Wood,

Agenda

1. **Core Components Report for KFL&A**
    a. Karys shared her report

2. **Training**
    a. **Updates and reminders**
        i. 9 agencies trained
        ii. 23 trained in the Leadership Training Stream
        iii. 52 trained in the Practitioner Training Stream
        iv. ASQ Kits should have been purchased
        v. Workbook implementation plans should be implemented
        vi. Practitioners should be using ASQs and DSPs
        vii. If your agency has not, please connect with Karys about CanDDIS database
    b. **Sustainability (ASQ Train the Trainer and DSP Coaching)**
        i. ASQ TOT need at least a year's experience
        ii. November is open call training for Pathways
    c. **Proposing a Working Group**
        i. **Central Hub agencies connect about how the ASQ Screening process is going**

3. **IEMH Care Pathways Map**
    a. **Review Draft**
        i. Light blue bubbles:
            1. Group agree to keep them all
            2. Jennifer: keep the parents and caregivers as they often will bring up concerns in conversation and it is a reminder of front-line educators to react by following the pathway
        ii. Anne: likes this version the best
        iii. Red bubble:

1. Susan: is the expectation not that routine screening should be done, and not just when there is a concern?
    a. Hadir: most agencies may start here before they move towards a universal approach
2. Susan: maybe moving towards a universal approach for screening is one of the objectives for the Central Hub Working Group and the text can be changed
3. Group agrees to keep it

iv. Yes to "Has an ASQ been administered?"
1. Susan: is there a simplified summary tool that practitioners can share with families about the ASQ scores?
2. Hadir: no

v. No to "Has an ASQ been administered?"

vi. Blue bubble with the ASQ screening agencies
1. Jamie and Sara: swap the "Are you or anyone at your agency able to administer the ASQs?" with the "Is the family already receiving services….?"

vii. Referral orange bubbles:
1. Darlene: KidsInclusive is listed twice, that could potentially be confusing
2. Sarah: could remove SmartStart Hub from the Central Hub list and clarify them as being the place to refer the child when there are developmental concerns
3. Susan: may not be clear where to send the child; have other communities differentiated where children can be sent according to the ASQ3s or ASQ:SE2s
    a. Hadir: showed the Hamilton maps
    b. Susan: maybe this additional information can be put in the Supplementary document
4. Darlene: seeing the Hamilton maps and seeing Ron Joyce listed twice and they are also the SmartStart hub for their community

viii. Hadir: shared the Hamilton and HPEC (Belleville and East) maps to ask about the design they prefer
1. Sarah: likes the HPEC map; IIPCT is being skipped over so they want to ensure that they are involved in the map; likes the promotion, prevention, intervention, treatment
2. Susan: depending on the practitioners expertise, they may not know the services well enough to make an appropriate overview
3. Helen: I like the idea of a complimentary document that could be broken into categories and refer to it one this one pager

4. Sarah: would be nice to have a brief overview of each agency so we know where to send referrals appropriately.
5. Darlene: I don't think they would necessarily know who does what - I agree with Sarah to have it broken down. A complimentary document would work as well
6. Sarah: Once we introduce this to our Physicians and NPs, I can see them requesting a handout or supplementary document to refer to so that they can increase their knowledge of the service providers but also having it all in once place is an easy reference and we can place them in our clinic rooms and have copies accessible.

4. **Supplementary Document and/or Information Sheet**
    a. Hadir: sending out a poll

5. **Family-Friendly Resources**
    a. **Examples from Other Communities**

6. **Next Steps**
    a. **Debrief**
    b. **Meetings**

Action Items:

- Rup:
    - Send follow-up email to the screening agencies as follow-up
    - Changes to the map:
        - Swap the “Are you or anyone at your agency able to administer the ASQs?” with the “Is the family already receiving services….?”
        - Possibly thinking of breaking down the referral agencies according to promotion, prevention, early intervention, and treatment
- Hadir
    - Send out poll about the maps and the supplementary materials for their edits and suggestions
