

A close-up, warm-toned photograph of two hands clasped together. One hand is an adult's, and the other is a child's. The child's thumb has a colorful nail design featuring a sun and a leaf. The background is softly blurred.

Foundations in Early Well-Being: A Certificate in Infant and Early Mental Health

For years, IEMHP has heard from many practitioners eager to enhance their knowledge related to infant and early mental health. The Certificate is a unique, made in Canada program that will strengthen your knowledge and skills related to infant and early mental health and as a participant you will be part of a strategy to help build a stronger infant and early mental health informed workforce across Canada.

About the Certificate

The Certificate is a virtual hybrid program designed for practitioners who engage and support families with young children, prenatal to six. Through a combination of live virtual and recorded sessions participants will expand and strengthen their knowledge and skills in a number of areas related to infant and early mental health. Building upon the knowledge and experience of participants, the Certificate will delve into a range of topics including the science that supports the importance of infant and early mental health and its impact on lifelong wellness. Strategies, models, programs and best practices for the promotion of infant and early mental health, prevention and mitigation of mental illness and early intervention strategies, will also be explored.

→ Course Content

- Introduction to the Foundations of Early Well-Being
- Beyond the Basics
- Infant and Early Mental Health and Adversity
- Embedding Equity
- Supporting Infant and Early Childhood Mental Health
- Assessment, Early Intervention and Treatment
